

VLQ-2500T Dragon Fire series 5.8GHz

800m 4-channel full function wireless video transmission system

Application scenes: Multi-Camera shooting for educational live streaming, digital classroom upgrade, video conference and live sports broadcast.

Features

- Support 4-channel 1080p@60fps wireless video transmission, each channel can reach up to 800m /2500ft transmission range (line of sight).
- Built-in 4-channel 2.4G duplex intercom system, up to 1000m transmission range. It can still get connected by intercom if lost video signal.
- 4X4 MIMO multi-channel reflection enhancement technology
- Strong signal can go through the wall
- Optional Video quality to guarantee transmission quality
- Ultra-low Latency 70ms
- Support SDI +HDMI
- Support SDI loop out, HDMI loop out
- Support RTSP streaming output
- Support Tally, built-in Tally LED
- Support RS232/422

VLD-3000T Dragon Fire series 5.8GHz

1000m 2-channel full function wireless video transmission system

Application scenes: Multi-Camera shooting for educational live streaming, digital classroom upgrade, video conference and live sports broadcast.

Features

- Support 2-channel 1080p@60fps wireless video transmission, each channel can reach up to 1000m /3000ft transmission range (line of sight).
- Built-in 2-channel 2.4G duplex intercom system, up to 1000m transmission range. It can still get connected by intercom if lost video signal.
- 4X4 MIMO multi-channel reflection enhancement technology
- Strong signal can go through the wall
- Optional Video quality to guarantee transmission quality
- Ultra-low Latency 70ms
- Support SDI +HDMI
- Support SDI loop out, HDMI loop out
- Support RTSP streaming output
- Support Tally, built-in Tally LED
- Support RS232/422

VL-3000T Dragon Fire series 5.8GHz

1200m full function wireless video transmission system

Application scenes: Educational live streaming, digital classroom upgrade, video conference and live sports broadcast.

Features

- Support 1080p@60fps wireless video transmission, up to 1200m/3000ft transmission range (line of sight).
- Built-in 2.4G duplex intercom system, up to 1000m transmission range. It can still get connected by intercom if lost video signal.
- 4X4 MIMO multi-channel reflection enhancement technology
- Strong signal can go through the wall
- Optional Video quality to guarantee transmission quality
- Ultra-low Latency 70ms
- Support SDI +HDMI
- Support SDI loop out, HDMI loop out
- Support RTSP streaming output
- Support Tally, built-in Tally LED
- Support RS232/422

VLD-9000 1.4 Dragon Fire series

3000m **1.4GHz**

1.4GHz full function wireless video transmission system

Application scenes: Various scenes that require long range high-definition wireless video transmission.

Features

- 1.4G low frequency wireless, stronger penetration, easy to go through multiple buildings.
- Support 2-channel 1080p@60fps wireless video transmission, each channel can reach up to 3000m /9000ft transmission range.
- 2X2 MIMO multi-channel reflection enhancement technology
- Strong signal can go through the wall
- Optional Video quality to guarantee transmission quality
- Ultra-low Latency 70ms
- Support SDI +HDMI
- Support SDI loop out, HDMI loop out
- Support RTSP streaming output
- Support Tally, built-in Tally LED
- Support RS232/422

VL-9000 1.4 Dragon Fire series

3000m **1.4GHz**

1.4GHz full function wireless video transmission system

Application scenes: Various scenes that require long range high-definition wireless video transmission.

Features

- 1.4G low frequency wireless, stronger penetration, easy to go through multiple buildings.
- Support 1080p@60fps wireless video transmission, up to 3000m/9000ft transmission range.
- 2X2 MIMO multi-channel reflection enhancement technology
- Strong signal can go through the wall
- Optional Video quality to guarantee transmission quality
- Ultra-low Latency 70ms
- Support SDI +HDMI
- Support SDI loop out, HDMI loop out
- Support RTSP streaming output
- Support Tally, built-in Tally LED
- Support RS232/422
